PROFESSIONAL EXPERIENCE

Various Clients – Seattle, WA   **2014 to Present**

Web Developer

Responsible for working on a range of projects, developing/designing appealing websites and interacting on a daily basis with graphic designers, back-end developers and marketers. Provide value to dealership accounts by preparing, engaging and executing marketing strategy.

- Developed secure web application and back-end database for a social media platform (Talk-Now on GitHub).
- Selected to develop an international Filter Engineering company's responsive website. Currently creating user-friendly back-end e-commerce system that will allow the company's employees to make updates to the site and manage custom requests..
- Developed a Seattle Marina's mobile responsive website. Quickly identified issues with existing site, conducted market research, developed concept for new site and gained approval to redesign the web presence in order to drive additional business to the marina. Currently implementing an option for marina residents to pay moorage online.
- Personal Projects: local chat server, PHP Authentication pages, and a Social Media platform. All using MYSQL as a database. Also, Java backend applications such as a Directory Scanner and a Web Crawler.

CDK Global – Seattle, WA   **2014 to Present**

Web Designer/Account Advocate

Maintain GM Dealership Websites while influencing growth of the dealer's business.
- Provide value to dealership accounts by preparing, engaging and executing marketing strategy.
- Monthly maintenance of each account ensures the dealer's website supports the goals/objectives of the dealership
- Create landing pages using HTML/CSS as well as the internal Website Manager tool widgets

- Re-design landing pages to increase the overall flow of the dealer's website navigation and user experience

WIPRO/PONTOON SOLUTIONS – Seattle, WA   **2014 to 2015**

Vendor Manager

Facilitating program Standard Operating Procedures (SOP) training and updates to supplier community on a regular basis to ensure understanding and compliance.
- Establish and maintain a proactive, positive working relationship with client end users through regular phone and in-person contact associated with the MSP program
- Travel to vendor sites and promote communication with the end users within the assigned market area/skill set.
- Assisted Program Manager develop process flows and guidelines for new Program as well as perform SQL queries for client reporting
- Manage twenty-five vendors simultaneously while maintaining a positive relationship with the client.

MICROSOFT – Seattle, WA   **2013 to 2014**

Marketing / Advertising Analyst

Consulted with clients to increase product visibility leveraging key technology and tools and leading to material increases in page views and click through….

Significant Accomplishments:
- Evaluated and escalated to FORT premier risk online account ads for relevancy, quality, and policy structure, allowing them to serve on the web.
- Promoted as a member of Bing's Live Listing team, implementing new policy to serve as a final point of review for all ads currently running, handled multiple projects at once.
- Trained and updated new team members
